

OSHA Clinical Safety Training for Hawaii and Northwest

Introduction to OSHA Safety Training

1. Introduction to OSHA Safety Training

1.1 Introduction to OSHA Safety Training

Introduction to OSHA Safety Training

Every employee and physician is required to complete Kaiser Permanente's OSHA Safety Training upon hire and annually thereafter in order to:

- ensure that they are aware of Kaiser Permanente's safety and waste policies,
- be aware of potential hazards in the workplace and methods to prevent injuries and illnesses from them,
- promote a safe work environment, and
- be in compliance with federal and state regulations

Kaiser Permanente's OSHA Safety Training is comprised of multiple modules. Each module has a quiz at the end. In order to receive credit for completing the OSHA Safety Training course, you will need to successfully complete each module. Let's get started.

1 of 3 | You've completed 0% of the lesson.
